Checkboxes

Edit file SignupForm.vue

```
<template>
 <form>
   <label>Email:</label>
   <input type="email" v-model="email" required>
   <label>Password:</label>
   <input type="password" v-model="password" required>
   <label>Role:</label>
   <select v-model="role">
     <option value="developer">Web Developer
     <option value="designer">Web Designer</option>
   </select>
   <div class="terms">
     <input type="checkbox" required>
     <label>Accept terms and conditions
   </div>
 </form>
 Email: {{ email }}
 Password: {{ password }}
 Your role: {{ role }}
</template>
<script>
</script>
<style>
 input[type="checkbox"] {
   display: inline-block;
   width: 16px;
   margin: 0 10px 0 0;
   position: relative;
   top: 2px;
</style>
```

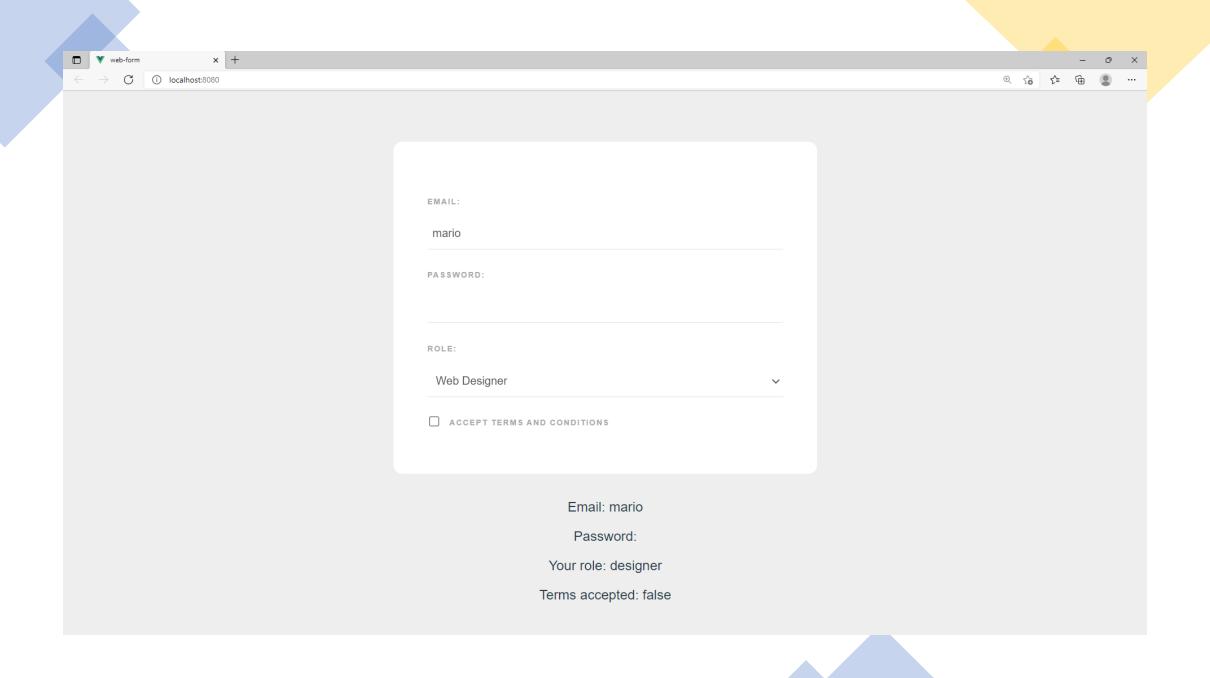

Add code

```
<template>
 <form>
   <div class="terms">
     <input type="checkbox" v-model="terms" required>
     <label>Accept terms and conditions</label>
   </div>
 </form>
 Email: {{ email }}
 Password: {{ password }}
 Your role: {{ role }}
 Terms accepted: {{ terms }}
</template>
<script>
export default {
 data() {
   return {
     email: 'mario',
     password: '',
     role: 'designer',
     terms: false,
</script>
<style>...</style>
```

Add

code

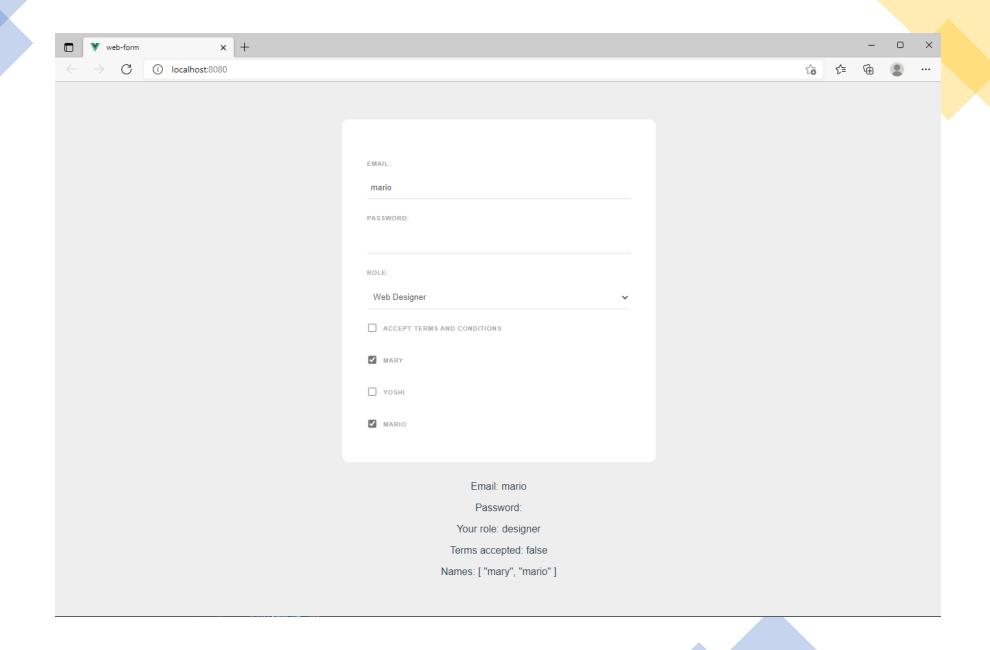

Edit file SignupForm.vue

```
<template>
   <div>
     <input type="checkbox" value="mary" v-model="names">
     <label>mary</label>
   </div>
   <div>
     <input type="checkbox" value="yoshi" v-model="names">
     <label>yoshi</label>
   </div>
   <div>
     <input type="checkbox" value="mario" v-model="names">
     <label>mario</label>
   </div>
 </form>
 Email: {{ email }}
